The **Nikko Stirling Diamond FFP 5-30x56 MRAD** is a high-performance riflescope designed for demanding shooters and hunters. With its variable magnification of 5 to 30 times and its reticle placed in the first focal plane (FFP), this scope allows for precise shooting at short, medium and long ranges. Whether for sport shooting or hunting, the Diamond FFP offers exceptional optical clarity, increased robustness, and unmatched accuracy.

### Technical specifications :

- **Magnification** : 5-30x
- **Lens diameter** : 56 mm
- **Reticle Type** : MRAD FFP (First Focal Plane)
- **Field of view** : 7.5-1.5m @ 100m
- **Parallax adjustment** : 20 m to infinity
- **Total length** : 390 mm
- **Weight** : 1046 g
- **Waterproof and fogproof** : Nitrogen filled for off-road use

### Main features :

- **5-30x Variable Magnification** : Ideal for a wide variety of distances, from close range hunting to long distance precision shooting.
- **56mm Wide Lens** : Ensures maximum light transmission, even in low light conditions, for a sharp, bright image.
- **First Focal Plane (FFP) Reticle** : The reticle adapts to each zoom level, allowing precise adjustments regardless of the magnification used, with a constant reading of MRAD

measurements.

- **Tactical Turrets** : Easy and precise adjustments in windage and elevation, with lockable turrets to prevent accidental changes.
- **MRAD Adjustment** : The scope uses a milliradian (MRAD) measurement system for quick and precise elevation and windage adjustments.
- **34mm Tube** : Allows for greater adjustment range and better light transmission for optimal long-distance performance.
- **Extreme Resistance** : Rugged, waterproof construction, filled with nitrogen for resistance to weather, shock and fog, ensuring use in the harshest conditions.
- **Adjustable Parallax** : Adjustable parallax for increased accuracy when shooting at long range.

The **Nikko Stirling Diamond FFP 5-30x56 MRAD** is a riflescope designed for snipers and hunters who seek ultimate accuracy and rock-solid reliability. Suitable for a wide variety of shooting scenarios, it is a benchmark choice for long-range performance.
