Versatility and precision for big game hunters.

On the Fabarm Asper A2 Express, the engraving, with its broad and elegant swirls, is deep to create a strong contrast. The mechanism features an extractor, facilitating the removal of spent casings. It has an adjustable convergence barrel, a hogback stock with a cheekpiece, and a specific mount for optics only on the butt plate to avoid hindering the free expansion of the tubes. The Asper A2 is a firearm that doesn't require choosing between complete technical mastery and an affordable price.

- **Rocker** : Steel, matte black finish
- **Extractor:** facilitates the collection of empty cases.

Detailed description

The ASPER A2 BLACK is a versatile and powerful rifle. Its caliber, widely used for big game hunting, ensures a flat trajectory and formidable stopping power. Its 55 cm barrels, with optimized rifling, guarantee exceptional accuracy while facilitating rifle handling, particularly during driven hunts.

The steel receiver, with its matte black finish, gives this shotgun the strength and durability ideal for the most demanding hunting conditions. Automatic ejectors allow for quick and smooth extraction

of spent casings for efficient follow-up shots. The selective single trigger offers precise control of the firing order, adding to the gun's versatility.

Its stock, crafted from select walnut, sanded and oiled, provides exceptional comfort and a refined, timeless style. Proofed to 1630 BAR, this model is compatible with modern ammunition, guaranteeing maximum safety and reliability in all circumstances.

The FABARM Express ASPER A2 BLACK: a high-performance and elegant rifle, designed to excel in your big game hunts.

FABARM Express ASPER 2 A2:

An express rifle whose elegance stems as much from its magnificent satin black finish and its striking yellow escutcheons as from the perfect proportions of its receiver. The engraving, with its broad and beautiful scrolls, is deep to create a strong contrast. The mechanism features an extractor, making the retrieval of spent cases easy.

With an adjustable convergence barrel, a cheekpiece stock (a version of which is also available for left-handed hunters), and a mounting system for optics only on the stock to avoid hindering the free expansion of the tubes, the ASPER A2 is also, and above all, a weapon benefiting from total technical mastery.

- Barrel length: 55 cm
- Rocker: Steel, satin black finish
- Wood: Stock with cheekpiece, sanded and oiled finish
