Versatile and precise, the Microdot First 4-16x50 AO scope offers adjustable magnification and a large objective lens for high-performance recreational shooting.

Optimize your shooting sessions with the Microdot First 4-16x50 AO scope. With its variable magnification from 4 to 16x and its bright 50 mm objective, it ensures precise shots, even at long distances. The parallax adjustment (AO) and the Mil-Dot reticle guarantee clear aiming and quick adjustment. Robust and easy to install, it is ideal for air rifles and .22LR weapons.

Technical characteristics:

- **Magnification:** 4-16x
- **Lens diameter:** 50 mm
- **Reticle Type:** Mil-Dot
- **Parallax adjustment:** Adjustable (AO)
- **Turrets:** Manual elevation and windage adjustment
- **Body:** Impact-resistant anodized aluminum
- **Waterproof:** Splash resistant
- **Accessories included:** Mounting clamps
- **Recommended use:** Recreational shooting, air rifles, .22LR

The Microdot First 4-16x50 AO riflescope is designed to meet the needs of recreational shooters seeking power, clarity and precision. Its adjustable magnification from 4 to 16x allows you to adapt to different shooting distances, whether it is close range or long range.

Its wide 50mm objective lens captures maximum light, ensuring a clear image even in low light conditions. The parallax adjustment (AO - Adjustable Objective) eliminates aiming errors, essential

for precise shots at different distances.

The Mil-Dot reticle makes it easy to estimate distances and calculate fire correction. Manual windage and elevation adjustment turrets provide quick and precise adjustment in the field.

Made from lightweight, durable aluminum, this scope is built to withstand the rigors of recreational shooting. Splash and shock resistant, it ensures optimum durability. Easy to mount with the included collars, it is perfect for air rifles and .22LR small arms.
