The Microdot First 3-9x40 AO riflescope is designed for recreational shooters and beginners looking to improve their accuracy without breaking the bank. Its **variable magnification of 3 to 9x** makes it easy to adapt to different shooting situations, whether for close targets or medium distances.

With a **40mm objective lens**, it offers good light capture, ensuring clear and bright images. Its **parallax adjustment (AO - Adjustable Objective)** eliminates aiming errors related to distance and ensures more precise shots.

The **Mil-Dot reticle** makes it easy to estimate ranges and compensate for wind or bullet drop, providing a distinct advantage during shooting sessions. **Manual adjustment turrets** allow for precise elevation and windage adjustments.

Made from **anodized aluminum** , it is designed to withstand impacts and splashes, ensuring increased durability. Installation is quick and easy with the **included mounting collars** , allowing both beginners and experienced shooters to use it right out of the box.
