A compact and incredibly powerful silencer

The **STALON VR** is a specialist in **small calibers** . With its compact and lightweight design, it offers acoustic performance comparable to that of much larger models. Its sound reduction reaches **34 dB in .223 caliber** , guaranteeing listening comfort and effective recoil reduction.

Optimized design for precision

Its **telescopic over-barrel** design limits the weapon's length to 139 mm while ensuring **balanced weight distribution** . Its tapered diameter (41.5-38 mm) allows for seamless integration with the rifle, particularly on long-range shooting models.

Compatibility and versatility

The STALON VR covers a wide range of modern calibers from .223 to 6.5 Creedmoor. Its multiple threads ensure easy adaptation to most rifles.

- **Compatible calibers:** max .223 and max 6.5 mm
- **Thread sizes:** M12x1 to M18x1, 1/2x20, 1/2x28, 5/8x18, 5/8x24
- **Total length:** 191 mm
- **Weight:** approx. 235 g
- **Attenuation:** up to 34 dB (.223)

STALON Technology and Durability

Constructed from **high-quality anodized aluminum** , reinforced by a **stainless steel core** and **robust threading** , the VR combines lightness and strength. Its matte black finish with a central gold ring gives it a modern and professional aesthetic.

The choice of discerning hunters and shooters

Lightweight, efficient, and compact, the **STALON VR** is perfect for hunting and precision shooting. It guarantees a comfortable shooting experience without sacrificing accuracy or maneuverability.

Interview with the moderator of his Stalon

After each use session, regardless of the number of shots fired, disassemble and maintain the silencer.

- Muffler cleaning: watch the "Maintenance & Care" video
- Grease the threads each time you reassemble it.

Choosing this model means opting for excellence with complete confidence.
