### Maximum sound reduction for small arms!

The Stalon VR is specifically designed for small calibers, offering everything you need – and more. Compact and lightweight, it features reduced extension and efficiency equivalent to larger, heavier suppressors. With its slim design, light weight and robustness, it ensures exceptional accuracy and adapts to many configurations, making it a versatile and efficient choice.

The Stalon VR silencer combines ingenious design with exceptional performance. Constructed from high-quality anodized aluminum, it is robust and durable, capable of withstanding the harshest conditions.

Its unique telescopic design allows for a 139mm extension beyond the barrel, with a total length of 191mm, including 52mm covering the barrel for better weight distribution. The 41.5mm diameter at the tapered fore-end ensures a compact and discreet silhouette, perfectly suited to hunting and sport shooting.

With up to 34 dB of noise reduction (.223 Remington), the Stalon VR effectively minimizes shot noise, improving hearing comfort and reducing the perception of recoil. Additionally, its design limits blowback for a clean and enjoyable shooting experience.

Weighing only 235 grams, this lightweight silencer does not add weight to the weapon, facilitating its handling and prolonged use. Compatible with standard threads such as M14x1 or 1/2-28 UNEF, it easily adapts to a wide range of rifles in 6.5mm Creedmor caliber.

Its elegant matte black finish and gold central ring bring a modern and professional touch, making the Stalon VR a technical and aesthetic choice for lovers of precision and performance.

- **Design:** Telescopic on the barrel
- **Sound Reduction/Attenuation:** Up to -34 dBc (.223)
- **Total length:** 191 mm
- **Length (advance extension):** 139 mm
- **Length (across the barrel):** 52 mm
- **Weight:** 235 grams
- **Diameter:** 41.5-35 mm (truncated cone shape)
- **Available calibers:** Max cal. .223, Max cal. 6.5 mm
- **Available threads:** M12x1-M18x1, 1/2"-20, 1/2"-28, 5/8"-18, 5/8"-24
- **Color:** Matte black with a gold ring in the center
- **Materials (external):** High quality anodized steel
- **Material (internal):**
  - Baffles: high quality anodized aluminum.
  - Core (first baffle): Stainless steel
  - Wire: Stainless steel
