### Maximum sound reduction for small arms!

The Stalon VR is specifically designed for small calibers, offering everything you need – and more. Compact and lightweight, it features reduced extension and efficiency equivalent to larger, heavier suppressors. With its slim design, light weight and robustness, it ensures exceptional accuracy and adapts to many configurations, making it a versatile and efficient choice.

The Stalon VR silencer combines ingenious design with exceptional performance. Constructed from high-quality anodized aluminum, it is robust and durable, able to withstand the harshest conditions.

Its unique telescopic design allows for an extension of 139 mm beyond the barrel, with an overall length of 191 mm, of which 52 mm covers the barrel for better weight distribution. The 41.5 mm diameter at the tapered front ensures a compact and discreet silhouette, perfectly suited to hunting and sport shooting.

With a noise reduction of up to 34 dBc, the Stalon VR effectively minimizes the noise of the shot, improving hearing comfort and reducing the perception of recoil. In addition, its design limits blowback gases for a clean and pleasant shooting experience.

Weighing only 235 grams, this lightweight silencer does not weigh down the weapon, facilitating its handling and prolonged use. Compatible with standard threads such as M14x1 or 1/2-28 UNEF, it easily adapts to a wide range of rifles in 6.5mm Creedmor caliber.

Its elegant matte black finish and gold central ring bring a modern and professional touch, making the Stalon VR a technical and aesthetic choice for lovers of precision and performance.

- **Design:** Telescopic on the barrel
- **Sound Reduction/Attenuation:** Up to -34 dBc (.223)
- **Total length:** 191 mm
- **Length (advance extension):** 139 mm
- **Length (on barrel):** 52 mm
- **Weight:** 235 grams
- **Diameter:** 41.5-35 mm (truncated cone shape)
- **Available calibers:** Max cal. .223, Max cal. 6.5 mm
- **Available threads:** M12x1-M18x1, 1/2"-20, 1/2"-28, 5/8"-18, 5/8"-24
- **Color:** Matte black with a gold ring in the center
- **Materials (external):** High quality anodized aluminum
- **Material (internal):**
  - Baffles: high quality anodized aluminum.
  - Core (first chican): Stainless steel
  - Wire: Stainless steel
