Extend the battery life of your night vision devices with the PARD 18650 3200mAh battery, designed for uninterrupted performance.

This PARD 18650 lithium-ion rechargeable battery, with a capacity of 3200mAh and a voltage of 3.7V, is specially designed to power your night vision devices such as the NV007, NV008 and NV019, providing extended runtime and increased reliability.

Technical characteristics:

- **Battery Type** : Lithium-ion 18650
- **Nominal capacity** : 3200mAh
- **Nominal voltage** : 3.7V
- **Compatibility** : PARD NV007, NV008, NV019 night vision devices
- **Rechargeable** : Yes

The PARD 18650 3.7V 3200mAh rechargeable battery is the essential accessory to ensure reliable power for your night vision devices. Its high capacity of 3200mAh allows you to significantly extend the autonomy of your devices, thus reducing the frequency of recharges and offering you longer use during your night outings.

Designed to be compatible with PARD NV007, NV008 and NV019 models, this battery ensures perfect integration and optimal performance. Its lithium-ion technology offers high energy density, minimal self-discharge and a long service life, ensuring sustainable and economical use.
