**Improve your shooting performance with the PARD Night Stalker 4K, a cutting-edge riflescope for unmatched accuracy, day or night.**

The PARD Night Stalker 4K combines advanced day and night vision technology with ultra-high definition 4K resolution. Its integrated laser rangefinder and ballistic calculator ensure accurate long-range shots, while its rugged, waterproof design ensures reliable use in a variety of weather conditions.

- **Sensor** : 4K CMOS, resolution 3840x2160 pixels
- **Eye distance**: 70 or 100 mm (OD)
- **Optical magnification** : 5.6x
- **Digital zoom** : Up to 22.4x
- **Laser rangefinder** : Range up to 1,200 meters
- **IR Illuminator** : 5W VCSEL, wavelength 850nm or 940nm, range up to 350 meters
- **Display** : Circular LTPS, 800x800 pixel resolution
- **Reticles** : 6 styles, available in red, white, yellow and green
- **Video recording** : 1920x1080 pixels, MP4 format
- **Storage** : Micro SD card up to 128GB
- **Connectivity** : Wi-Fi, USB-C, HDMI output
- **Power supply** : 18650 rechargeable battery
- **Weather resistance** : IP67
- **Operating temperature** : -20°C to 50°C
- **Material** : Aluminum alloy
- **Weight** : Approx. 680g (without battery)

- **Dimensions** : 396mm x 125mm x 110mm

The PARD Night Stalker 4K riflescope is designed for demanding shooters who require optimal performance in all circumstances. Its 4K CMOS sensor offers an impressive resolution of 3840x2160 pixels, ensuring sharp and detailed images, essential for accurate target identification.

The built-in laser rangefinder provides accurate distance measurements up to 1,200 yards, making it easier to estimate ranges and improve the accuracy of long-range shots. Combined with the advanced ballistic calculator, it helps determine necessary adjustments based on distance and environmental conditions.

The Night Stalker 4K features a circular 800x800 pixel LTPS display, providing clear and comfortable viewing. Its 100mm eye relief ensures a secure shooting position and reduces eye fatigue during long sessions.

The integrated VCSEL infrared illuminator, available in 850nm or 940nm wavelengths, provides an effective range of up to 350 meters in total darkness, ensuring optimum visibility without alerting game.

Constructed from high-grade aluminum alloy, the scope is weather-resistant with an IP67 certification, ensuring protection against dust and temporary immersion in water. It is also designed to withstand recoil up to 6000 joules, making it compatible with a wide range of calibers.

Additional features include 1080p video recording, built-in Wi-Fi for live streaming, multiple reticle styles and colors to suit user preferences, and extended runtime with a rechargeable 18650 battery.

Choose the 850nm version for maximum distance detection or the 940nm version for maximum discretion.

- **Weight** : Approx. 680g (without battery)
- **Dimensions** : 396mm x 125mm x 110mm
