OR0100701	Pard NV008SP2 Ø 70 / 850 / LRF	Vente libre	17.5	495	649.00 € incl. tax
OR0100711	Pard NV008SP2 Ø 70 / 940 / LRF	Vente libre	17.5	495	649.00 € incl. tax

The PARD NV008SP2 is a state-of-the-art digital riflescope, equipped with a high-resolution CMOS sensor and an integrated laser rangefinder, providing unmatched accuracy for day and night shooting.

Featuring a 2688x1520 pixel CMOS sensor and a 1440x1080 pixel OLED display, the NV008SP2 delivers clear, detailed images even in low-light conditions. Its built-in laser rangefinder provides accurate distance measurements up to 1,200 yards (approximately 1,100 meters), making it easy to aim your shots. The built-in infrared illuminator, available in 850nm or 940nm versions, ensures optimum visibility up to 350 meters. Compact and lightweight, with a battery life of up to 8 hours, the NV008SP2 is built to withstand the most demanding conditions thanks to its rugged construction and IP67 waterproof rating.

The PARD NV008SP2 riflescope stands out for its advanced technical features, providing users with an enhanced shooting experience. Its high-resolution 2688x1520 pixel CMOS sensor, combined with a sensitivity of 0.001 lux, ensures accurate target detection even in complete darkness.

The 50mm objective lens offers 4.5x optical magnification, complemented by up to 9x digital zoom, allowing detailed observation of targets at different distances. The 35mm eye relief ensures optimum comfort during use, while the 1440x1080 pixel OLED display provides a clear and sharp image.

The built-in laser rangefinder, with a range of up to 1,200 yards, combined with the ballistic calculator, facilitates accurate shots by automatically adjusting the point of impact based on the measured distance. The video recording function helps capture important moments, ensuring that every meaningful observation is recorded.

Additionally, the scope is equipped with a rechargeable 18650 battery providing up to 8 hours of battery life, and its rugged design with IP67 waterproofing makes it suitable for the most demanding environments.
