Master your dog's tracking and training with the CANICOM GPS 2, a 2-in-1 system combining precision and performance.

The CANICOM GPS 2 from NUM'AXES is an innovative device combining GPS location and long-range training functions. Equipped with the latest generation of GPS/GALILEO modules, it offers real-time location with exceptional precision. The optimized electronic compass ensures increased responsiveness, effectively guiding the owner to his dog. This system also includes an education function with a range of up to 3 km, allowing you to recall or correct your dog remotely. High-brightness LEDs can be activated on the collar to enhance safety, especially in low visibility conditions. The CANICOM GPS mobile application, available on iOS and Android, offers an optimized user interface, making it easier to track and control your pet.

GPS function:

- location up to 15 km!
- Tracking in compass mode or on a hard map on a phone connected by bluetooth.
- Allows you to locate up to 20 dogs with 1 remote control
- Requires 1 collar per dog (additional collars optional)
- Indicates whether the dog is stationary or moving
- Possibility to make the collar vibrate or beep when the dog is stationary.

Education function:

- Up to 3km range.
- 3 modes: beep, vibration, stimulation

Remote :

- Remote control dimensions: 148 x 58.6 x 39.5 mm - 250 g
- Remote control battery life: up to 25 hours (depending on settings)
- Power supply: 2 x 2200 mAh lithium-ion batteries
- Magnetic charger supplied

Necklace :

- Necklace dimensions: 86 x 45 x 45 mm - 280 g
- Collar battery life: up to 30 hours (depending on settings)
- Power supply: 3200mAh lithium-ion battery
- Magnetic charger supplied

Compatible with Canicom GPS 1st version

The CANICOM GPS 2 is the ideal choice for dog owners who want to combine precise location with effective training. Thanks to its advanced technology, this system allows you to track your dog's movements in real time, while offering long-range training features. Compatibility with CANICOM GPS and CANICOM GPS 2 collars allows you to manage multiple dogs simultaneously. The dedicated mobile application offers detailed mapping, personalized alerts and the ability to create virtual fences, ensuring total control of your pet's environment.
