Protect your long guns with the POWER CASE case, equipped with adjustable foam for secure transport and custom storage.

Transport and protect your equipment with the Power Case, designed for total customization thanks to its innovative "Pick & Pluck" foam.

- Interior dimensions: 112 x 46.50 x 18 cm
- Useful volume: 93.74 l - Waterproof IP67
- 4 closures + 2 padlocking points.

The POWER CASE hard case is specially designed for the secure transport of long weapons. Its robust structure, certified waterproof IP67, offers optimal protection against water, dust and shocks. Equipped with customizable "Pick & Pluck" interior foams, it allows storage adapted to each piece of equipment. With its 6 compression locks, padlock eyelets and decompression valve, it is ideal for demanding shooters and professionals.

Technical characteristics:

- **Weight (empty)** : 8.18 kg
- **Interior capacity** : 55.84 liters
- **Waterproofing** : IP67 certified (water and dust)
- **Material** : Glass fiber reinforced polypropylene
- **External dimensions** : 138.7 x 39.4 x 15.2 cm
- **Internal dimensions** : 130.8 x 32.1 x 13.3 cm
- **Locks** : 6 heavy duty compression locks
- **Security** : Reinforced eyelets for padlock (10 mm)
- **Internal foams** : "Pick & Pluck" system with corrugated upper foam and protective base
- **Air transport** : Integrated pressure relief valve, suitable for checked baggage
- **Temperature range** : -40°C to +90°C

The POWER CASE hard case is the essential ally for sport shooters and hunters looking to transport their long guns safely. Made of fiberglass-reinforced polypropylene, it resists impacts, corrosion and harsh environmental conditions. Its IP67 certification guarantees total sealing, protecting your equipment from water and dust.

Its interior is equipped with layers of "Pick & Pluck" foam, composed of pre-cut cubes that can be removed to perfectly adapt the storage space to your weapons and accessories. A corrugated top layer protects and holds the contents in place against the lid, while a thin foam at the base avoids any direct contact with the hull, thus ensuring complete protection.

With external dimensions of 138.7 x 39.4 x 15.2 cm and an internal capacity of 55.84 liters, this case is ideal for transporting your rifles, shotguns or sensitive equipment. The 6 robust compression locks and padlock eyes (10 mm) ensure increased security against accidental opening or theft.

The built-in pressure relief valve allows for worry-free air transport, regulating internal pressure to prevent damage from altitude changes. Plus, its stackable design makes storage and transport easy for professionals with multiple pieces of equipment to move.

With a resistance to extreme temperatures from -40°C to +90°C, the POWER CASE adapts to the harshest environments. Whether for use in difficult terrain or during travel, it offers unmatched protection for your long guns and accessories.
