The Microdot Sight MS40 is a next-generation red dot sight designed for fast and efficient target acquisition. It adapts to all situations, whether you're at the shooting range or out hunting. Its robust aluminum construction ensures excellent resistance to shocks and wear, while its lens coating guarantees exceptional clarity and glare-free vision.

The Microdot Sight MS40 red dot holographic is ideal for shooting enthusiasts looking for performance and practicality. Whether for precision shots or rapid shots, the MS40 guarantees immediate target acquisition, optimizing your performance.

The MS40's structure, made of aeronautical aluminum, ensures lightness and durability, even in the most demanding environments. Equipped with an advanced anti-reflective treatment, it offers a clear and bright image, without distortion. The intuitive side controls allow for quick adjustment of brightness to adapt to all light conditions.

Additionally, the optic is compatible with most standard mounts, making it easy to integrate onto your favorite weapons. This model is also water and weather resistant, perfect for outdoor use.

With the Microdot Sight MS40, every detail has been designed to provide a superior shooting experience. Its advanced technology and ergonomic design make it a must-have tool for professional and amateur shooters alike.
