Maximize your performance with the Microdot Sight MS30, a rugged, compact red dot designed for demanding shooters, whether hunters or sportsmen.

The MICRODOT SIGHT MS30 micro is a compact red dot that excels in all situations. With its precise illuminated reticle and intuitive adjustments, it guarantees rapid target acquisition, whether for hunting or sport shooting. Lightweight, is handy and does not weigh down your weapon, while its durable aluminum construction promises rock-solid durability.

Raised and recessed mounting keeps the open sight operational.

The MICRODOT SIGHT MS30 micro is a compact sight designed specifically for shooters looking for precision and speed. Featuring a precise illuminated reticle, it offers optimal visibility even in low light conditions. With its adjustable brightness settings, it adapts perfectly to your environment, whether it is an indoor shooting range or an outdoor hunting ground.

Its robust aeronautical aluminum structure ensures increased resistance to shocks, bad weather and intensive handling. Its micro format allows it to be mounted on a wide variety of weapons without compromising their balance. Compatible with standard mounting rails, the MS30 is an easy-to-install and easy-to-use accessory, ideal for demanding shooters.

The advanced coating of its lenses guarantees a clear and glare-free image, essential for rapid target acquisition. Waterproof and resistant to harsh weather conditions, this red dot is designed to accompany you in all your shooting activities, season after season.

With the MICRODOT SIGHT MS30 micro you get modern technology in a compact format, perfect for all shooting enthusiasts and professionals.
