Unlock your full potential with the Falke 4-16x44 scope, a premium optic designed for long-range sport shooting.

The Falke 4-16x44 riflescope is designed for sport shooting enthusiasts looking for absolute precision. Its 4 to 16 times magnification and 44 mm objective lens ensure exceptional clarity. Thanks to the Half Mil Dot reticle with red illuminated central dot and the precise adjustment turrets (1/8 MOA), it guarantees a fine and stable adjustment. The parallax correction, adjustable from 10 meters to infinity, optimizes every shot.

The Falke 4-16x44 scope is ideal for sport shooting, especially at long range. Its adjustable magnification allows you to quickly adapt your aim, whether for shooting on a fixed target or in competition. Its Half Mil Dot reticle is designed to provide precise reference points and optimize ballistic corrections. The parallax adjustment guarantees perfect focus at all distances, eliminating blur and improving aiming stability.

The lockable turrets ensure precise adjustments without the risk of misadjustment, while its 30 mm tube optimizes light transmission for a clear and contrasted image. Filled with inert gas, the scope is protected against fogging and humidity, making it reliable in all conditions. Its compact size and controlled weight (800 g) make it a preferred choice for competitors looking for a perfect balance between robustness and maneuverability.

- **Magnification** : 4-16x
- **Lens diameter** : 44 mm
- **Eye relief** : 119 / 85 mm
- **Field of vision at 100 m** : 9.6 / 8 m
- **Tube diameter** : 30 mm
- **Weight** : 800 g
- **Length** : 37 cm
- **Reticle** : Half Mil Dot with red illuminated center dot
- **Parallax adjustment** : from 10 m to infinity

- **Maximum adjustment (elevation/windage) : 58 MOA**
- **Click value at 100 m : 1/8 MOA (3.62 mm)**
- **Focal plane : Second focal plane (SFP)**
- **Waterproof and gas filling : Yes**
