OP6875	FALKE PRO SERIES 5-30X56 MRAD	Vente libre	16.73	40.98	1/10 Mrad	82	82	7.9	-

High-end telescope with 34mm body, MRad settings and reticle in the second focal plane.

- Parallax adjustment from 10 m to infinity
- Setting ranges of 23.86 Mil Rad (82 MOA)
- Tactical turrets with impact correction per click of 0.1 MRAD
- Illuminated half-mildot reticle in the second focal plane with 11 intensity levels
- Diopter adjustment +2 to -3
- Supplied with flip-up type protective caps

A scope designed for efficiency and robustness

The **FALKE 5-30x56** is designed to combine performance and durability. Its 34 mm aluminum body offers optimum resistance to shocks and extreme conditions. The **illuminated Half Mil Dot reticle** allows for rapid target acquisition with perfect readability, even in low light. Its **Second Focal Plane (SFP)** design ensures that the reticle size remains constant, ensuring better shooting accuracy at different distances.

The high-quality optics guarantee exceptional light transmission and optimum image clarity. The **MRAD windage and elevation adjustment with 0.1 MRAD steps** provides extreme precision, ideal for long-range shooting. The included sunshade reduces unwanted reflections, while the **screw-in magnification adjustment lever** facilitates rapid adaptation in dynamic situations.

This scope also comes with a **Kill Flash system**, which reduces reflection from the front lens, preventing unwanted detection and improving stealth in the field.
