Compact ergonomics

With its short 36 cm barrel and optimized overall length, the **shotgun** offers ideal maneuverability for shooting in confined spaces. The Pro Forces composite stock, equipped with an ergonomic handle, ensures a firm and stable grip.

Equipment versatility

A MIL-STD 1913 Picatinny rail is integrated into the frame, allowing the addition of useful accessories such as optics or lamps specific to sport shooting. The sights with eyepiece and optical fiber promote fast and intuitive target acquisition.

Enhanced durability

The **Cerakote Burnt Bronze** finish effectively protects the weapon against wear, moisture, and intensive use. This surface treatment also provides an attractive visual stealth on the outdoor firing range.

Technical materials

- **Picatinny rail:** MIL-STD 1913 standard
- **sights:** eyepiece + fiber optic front sight

- **total length:** approx. 80 cm.

Cerakote

Cerakote is a high-performance ceramic coating applied to the barrel and receiver. It provides increased resistance to corrosion, scratches, and weathering, extending the life of the weapon.

Ergal 55

Ergal 55 alloy is a high-quality aluminum, renowned for its lightness and strength. Used in the manufacture of the frame, it allows for a more maneuverable weapon without sacrificing robustness.
