A compact pistol designed for excellence

The **Kimber Micro 9 Liberty** is a 9mm semi-automatic handgun that combines **distinctive design** , **premium build quality** and **compactness ideal for concealed carry** . This model is part of Kimber's prestigious Micro 9 range, designed for those looking for a weapon that is reliable, stylish

and easy to conceal.

Small size and light weight for discreet port

With a total length of **15.5 cm** , a height of **10.3 cm** and a **thickness of only 2.7 cm** , the Micro 9 Liberty is perfectly suited to **concealed carry** . Its light weight of **442 g (with empty magazine)** allows for prolonged wear without discomfort or fatigue.

A patriotic and elegant design

This unique model features a **black KimPro® II finish** on the frame and slide, combined with an **American flag-decorated stock** , for a bold and confident look. A strong visual signature that doesn't compromise discretion or functionality.

Kimber Mechanical Reliability and Precision

The pistol is equipped with a **3.15 inch (8 cm) left-hand rifling (1:16) stainless steel barrel** with an **integrated ramp** , ensuring smooth feeding and consistent accuracy. The stainless steel slide and **long guide rod** ensure a smooth, reliable and durable firing cycle.

The **5.2 kg (11.5 lbs)** recoil spring has been tuned to provide a good balance between smooth recoil and weapon control, even for shooters with little experience.

Fast aiming and neat trigger

The aiming system consists of a **red fiber optic sight at the front** and a **white dot sight at the rear** , promoting **rapid target acquisition** , even in low light conditions.

The **match-grade aluminum trigger** is flat-faced and weighed **approximately 3.2 kg (7 lbs)** , ensuring a clean, consistent pull with every shot.

Capacity adapted to the format

The **7-round** magazine provides sufficient capacity for defensive or recreational shooting use, while maintaining the overall finesse of the model, ideal for **maximum discretion** .
