- **Battery life:** up to 6 hours (18650 battery)
- **Protection:** IP67, recoil resistance 6000 J

Night vision built for action

This package was designed for shooting and hunting enthusiasts who refuse to let the night limit their performance. With its **2560 × 1440** sensor and **35 mm** lens, the camera delivers a remarkably sharp image, even in near-zero light conditions.

Comfort and precision

Its **9.9 m to 100 m field of vision** allows you to effectively cover the scene while maintaining suitable magnification thanks to its **3x optical** and **2x digital** zoom. The **100 mm eyepiece** ensures optimal user comfort, even during prolonged shooting.

Technology and connectivity

Thanks to its **high-resolution IPS screen** , the user benefits from faithful colors and customizable reticles. Modern features such as **automatic resumption of recording on recoil** , **gyroscopic stabilization** and compatibility with the **PardVision2** application make this model a complete tool.

Built-in 850nm IR lamp

The **850nm VCSEL** infrared offers a range of up to **350m** with 3 adjustable intensity levels. Its quick mounting and **IP67** resistance ensure flawless reliability, even in the most demanding environments.
