Tactical rifle, fast aiming and noise reduction: a package ready for action.

Designed for demanding shooters, this package includes the AR15 M4E1 Aero Precision 11.5" 5.56 NATO, a Microdot MS40 multi-reticule sight and a QD-mounted SAI M80 silencer.

The **AR15 Aero Precision Pack** offered by SIMAC is a high-end solution designed for demanding shooters. It consists of three perfectly compatible and performance-oriented elements: an **AR15 Aero Precision M4E1 11.5"** rifle, a **Microdot Sight MS40** sight with multi-reticule holographic display, and a **SAI M80 5.56 silencer** with QD quick release. This pack offers immediate handling, a fast aiming system and optimal noise reduction.

Aero Precision M4E1 11.5" – Compact and robust

The foundation of this pack is the M4E1 platform, a **compact AR15** carbine chambered in **.223 Remington (5.56 NATO)**, with an **11.5-inch barrel**, perfect for constrained environments and dynamic shooting. The **M4E1 Enhanced lower** provides advanced ergonomics with a free-floating handguard and M-LOK accessory interface. The one-piece CNC-machined upper receiver ensures robustness and assembly precision. Mil-Spec design, 7075-T6 machined parts, direct trigger and proven reliability make this platform a tactical asset.

Microdot Sight MS40 – Multi-reticle Fast Sight

Included in this pack, the **MS40 sight** is a compact **holographic** red dot sight, ideal for rapid fire with or without magnification. It offers **4 switchable reticles**, **5-level adjustable brightness**, and **anti-reflective technology** that ensures clear aiming whatever the conditions. Compatible with Picatinny mount, this red dot allows instant target acquisition, even on the move.

SAI M80 Silencer – Discreet and efficient

This pack also includes the **SAI M80 silencer** , designed for the **5.56 caliber** , with a **QD** (Quick Detach) attachment for a standard A2 flash suppressor. Lightweight and robust, it offers **significant noise reduction** while limiting recoil and muzzle flash. Perfect for confined environments, intensive training or covert operations.

AR15 Aero Precision M4E1:

- **Caliber:** .223 Rem / 5.56 NATO
- **Barrel Length:** 14.5" (368 mm)
- **Thread:** 1/2 x 28 TPI
- **No scratch:** 1:7
- **Upper receiver:** Monoblock Aero Precision, 7075-T6 aluminum
- **Lower receiver:** M4E1 Enhanced, 7075-T6 aluminum
- **Rail:** M-LOK floating
- **Trigger:** Direct, Mil-Spec
- **Approximate weight:** 2.7 kg
- **Sights:** Not included

Microdot Sight MS40:

- **Type:** Holographic Red Dot
- **Reticles:** 4 selectable reticles
- **Brightness adjustment:** 5 levels
- **Mounting:** Picatinny rail
- **Power supply:** CR2032 battery
- **Construction:** Reinforced, shockproof aluminum

SAI M80 silencer:

- **Caliber:** 5.56 mm NATO
- **Length:** 150 mm
- **Attachment:** QD for A2 flash hider
- **Weight:** 480 g
- **Material:** High temperature treated steel
- **Finish:** Matte black, anti-glare
- **Noise reduction:** Complies with civil and professional standards
