The **PARD Night Stalker Mini** is a digital night vision scope designed for demanding hunters and shooters . Available in two lens versions – **16 mm for** short ranges and **35 mm for** medium to long ranges – it offers maximum flexibility depending on your needs .

High Definition Sensor

Equipped with a **2560x1440 pixel** CMOS sensor , the Night Stalker Mini delivers sharp and detailed images , even in low light conditions (sensitivity of 0.001 lux) . The refresh rate of 60 Hz in color and 30 Hz in monochrome ensures smooth viewing .

Innovative Circular Display

Its **800x800** circular screen matches the natural structure of the human eye , providing a comfortable and intuitive aiming experience . **The 100mm eye relief ensures** safe use , even with powerful calibers .?

Compact and Robust Design

Weighing only 455g (battery included) and featuring an aluminum alloy body , the Night Stalker Mini is both lightweight and durable . Its **30mm tubular** design allows for easy installation with standard clamps , without the need for a Picatinny rail . ??

Advanced Features

- **Optical zoom** : 3x
- **Digital zoom** : 2x
- **Color Modes** : Color , Black & White, Green, Yellow
- **Reticle Styles** : 6 styles , 4 colors (red, white, yellow, green)
- **Video recording** : 1440x1080, MP4 format
- **Photo** : 1440x1080, JPG format
- **Storage** : Micro SD card up to 128 GB
- **Connectivity** : Wi- Fi, USB Type -C, HDMI
- **Additional Features** : Picture- in -Picture mode , gyroscope, reverse - activated recording , auto-recording , time stamp, audio recording

Autonomy and Resistance

Powered by a **18650** Li- ion battery , the scope offers up to **6 hours** of battery life . It is **IP67** certified , guaranteeing protection against dust and water , and resists recoil up to **6000 J** , ensuring reliable performance even with powerful calibers .

Versatile Applications

The **16mm version** is ideal for short - range shooting , such as ratting or small game . The 35mm version is ideal **for longer** distances , offering better target identification at medium range . ??????
