4K recording automatically triggered when shooting, in compliance with hunting regulations.

Designed to **film your shots with precision**, this under-barrel camera **captures the action in 4K** and starts recording automatically when the shot is fired, just like **Shotkam cameras**.

- **Sensor:** CMOS 3840x2160 px
- **Digital zoom:** 2x
- **Video Resolution:** 4K at 30/60/120 fps
- **Trigger:** automatic on firing
- **Power Supply:** 18650 Rechargeable Battery
- **Battery life:** up to 6 hours
- **Waterproof:** IP67
- **Recoil resistance:** up to 6000 J
- **Connectivity:** Wi-Fi + USB-C
- **Length:** 14 cm (suitable for hunting use)

The **PARD Action action camera** is designed for hunters and shooters who want to **capture their shots and footage in ultra-high definition**. Compact, powerful, and durable, it incorporates the latest video and connectivity technologies so you won't miss a thing during your shooting or hunting sessions. The video above shows the device's startup and initial setup.

A 4K image with exceptional precision

Equipped with a **3840x2160 px CMOS sensor**, the PARD Action delivers ultra-detailed images. It captures over 8 million pixels, making it easy to identify subtle details such as small game hidden in dense vegetation

or human silhouettes at a long distance.

Digital zoom and image fluidity

Thanks to a **2x digital zoom** , you benefit from magnification without significant loss of quality. The camera offers three recording modes: **30, 60, or 120 frames per second** , for perfectly smooth footage, even during fast movements or intense action.

Autonomy and robustness adapted to the terrain

The PARD Action is powered by a **rechargeable 18650 Lithium-Ion** battery, providing **up to 6 hours of battery life** . Designed for extreme conditions, it is **waterproof (IP67 rating)** and **withstands recoil up to 6000 J** , making it compatible with most calibers used in hunting.

Real-time connectivity

Thanks to its **Wi-Fi connection** , the camera can be synchronized with a smartphone for **live viewing** or **quick video transfer** . It also features a **USB-C port** for fast and reliable charging or data transfer.

This **next-generation** camera combines **video performance, mechanical robustness and digital ergonomics** to meet the expectations of passionate hunters or professional shooters wishing to document and analyze their shots with precision.
