ST002-1228	1/2x28	C	.223 (5.56 mm)	6.5	82	276.00 € incl. tax

High performance coating and carbon blocking eliminated!

The ERATAC barrel adapter incorporates a birdcage-style flash suppressor and a special coating to limit powder residue. This system prevents the dreaded "carbon lock" and ensures long-lasting thread protection. Available in several thread pitches for maximum compatibility with .223 firearms.

- **Type** : Barrel adapter with integrated Mündungsfeuerdämpfer
- **Available threads** :
  - M15x1: ST002-1510
  - M15x1 Spigot: ST002-151S
  - 1/2"-28 UNEF: ST002-1228
  - 5/8"-24 UNEF: ST002-5824
- **Coating** : Anti-carbon, high resistance
- **Additional accessory** :
  - ERATAC LOC Thread Plug - Ref. ST001-0000
- **Caliber compatibility** : .223 Rem / .30
- **Tests** : USSOCOM Compliance - 1,440 rounds (rapid and continuous fire)

- **Validation** : Performance confirmed by DEVA

The **ERATAC** barrel adapter is a high-end technical solution designed for demanding shooters who want to make their weapon more reliable and protected. Equipped with an **integrated flash moderator** (birdcage type), this accessory significantly reduces the visual signature when shooting while effectively protecting the weapon's threads.

High-performance anti-carbon coating

Thanks to a **high-performance coating** , the accumulation of powder residue is significantly reduced. This innovative surface treatment prevents the appearance of **"carbon lock"** , a well-known phenomenon that blocks screwed devices after intensive use. The result: easier disassembly and increased longevity.

Multi-caliber and multi-thread compatibility

The adapter is available with different thread types to fit **.223 Rem / .30** caliber barrels and standard M15x1, M15x1 Spigot, 1/2"-28 UNEF and 5/8"-24 UNEF threads. A **new muzzle brake** is also in development to provide even more recoil control.

Secure thread with protective cap

The adapter can be completed with an **ERATAC® LOC thread cap** , ensuring optimal protection of the thread when the sound moderator is dismantled. An essential device to guarantee perfect mechanical integrity of your LOC system.

USSOCOM Standards Proven Design

Tested to **USSOCOM** standards, this adapter has withstood 1,440 rounds of rapid-fire and continuous fire. Functional performance and noise reduction have been **validated by DEVA** , confirming reliability and manufacturing quality according to rigorous criteria.
