- **Weight:** Approx. 3.4 kg
- **Test:** Steel Ball
- **Accessories:** Comes with carrying case

Two versions for a perfect fit

The **CARRERA IV 20/76 Fair Trap Shotgun** is available in two configurations to meet all expectations: a **fixed stock version** for lovers of simplicity and tradition, and an **XR-STOCK® adjustable stock version** that allows you to adjust height, tilt and throw. This personalized adjustment guarantees a shooting position perfectly adapted to the shooter's morphology and optimizes consistency in competition.

Ballistic performance and shooting comfort

Equipped with a **76 cm** steel shot-tested barrel, this shotgun benefits from the **X-CONES®** system, which smooths the chamber/barrel transition, thus limiting recoil and improving comfort, especially

during intensive series. It comes with **5 TECHNICHOKE® SPORT XP70 70 mm chokes** , allowing fine adaptation to target types and shooting distances.

Robustness and proven mechanics

The CARRERA IV is built on a **high-strength, one-piece steel receiver** with **a double flat lock** and **interchangeable trunnions** for ultimate reliability. The **selective single trigger** ensures a crisp, quick response, while the **automatic ejectors** facilitate smooth reloading between shots.

Neat finish and comfortable grip

In terms of aesthetics and ergonomics, we find a **stock in oiled sanded walnut** , both elegant and pleasant on the shoulder. The **adjustable version** offers additional modularity without compromising style. The matte black finish of the receiver completes the sober and modern appearance of the weapon. Each rifle is delivered in **a hard case** , ready for competitions.
