Dual function: infrared illumination and telemetry up to 1000 meters.

Compact and efficient infrared lamp incorporating a long-range laser rangefinder for night vision.

- **Type:** IR illuminator + laser rangefinder
- **IR range:** up to 350 m
- **IR power:** 5 W
- **Wavelength:** 850 nm or 940 nm (invisible to the naked eye)
- **Intensity levels:** 3 levels
- **Rangefinder range:** 1000 m

Designed for night vision, this compact IR lamp is aimed at shooters and hunters looking for a discreet and precise solution in the dark.

Stealth infrared lighting

With a **choice of 850 or 940 nm wavelengths** , this lamp remains **completely invisible to the naked eye** , while ensuring excellent visibility with night vision devices. Its **5-watt power** and **3 intensity levels** allow you to adjust the lighting according to terrain conditions, with an **effective range of up to 350 meters** .

How to choose your IR between 850 nm and 940 nm?

- 850 nm: infrared wavelength close to visible, offering superior range and brightness, but with a slight red glow perceptible to the naked eye.
- 940 nm: totally invisible to the human eye and to game, but with slightly less range and lighting power.
- In practice: 850 nm = maximum performance; 940 nm = maximum discretion.

An integrated laser rangefinder for precision

The module also includes a **laser rangefinder** capable of measuring the distance to targets up to **1000 meters** , making it a major asset for long-range shooting or tactical observation. The distance information allows for accurate anticipation of the necessary adjustments for each shot.

Compact size, quick installation

With its **lightweight yet robust design** , the module easily attaches to your optics or Picatinny rail without adding weight. It integrates perfectly with a PARD scope or monocular for a **seamless and high-performance setup** .

- **Mount:** Picatinny rail compatible
- **Design:** ultra-compact and lightweight
- **Compatibility:** Ideal for use with PARD night vision devices
- **Control:** ergonomic and intuitive
