Handy and precise pistol, with shaped wooden grips for optimal grip.

The **MAUSER PP7 in .22LR** focuses on ergonomics and precision, with a careful finish centered on its wooden grips.

- **brand:** MAUSER
- **model:** PP7
- **caliber:** .22LR
- **capacity:** 10 shots
- **barrel length:** 11.43 cm
- **total length:** 19 cm
- **weight:** 750 g
- **pads:** Ergonomic wood
- **warranty:** 2 years

Wooden plaques

The **wooden grips** are the distinguishing feature of this model: they offer a natural support surface, good thermal insulation, and an aesthetically pleasing finish. When properly fitted, they improve grip repeatability and contribute to better stability when aiming.

Rifled barrel

A **rifled barrel** has helical grooves inside the tube that impart spin to the bullet. This spin stabilizes the trajectory and increases accuracy, a significant advantage for the **.22LR** caliber at range distances.

.22LR

The **.22LR** is a rimfire cartridge that is economical and has low recoil. It allows for numerous training rounds at a lower cost while offering accuracy suitable for learning and recreational shooting.

Steel frame

The use of a **steel** structure ensures rigidity and longevity. Steel better withstands mechanical wear and facilitates regular maintenance, guaranteeing consistent performance over time.

Safety and ergonomics.

The .22LR Mauser PP7 pistol features an **ambidextrous safety** on the slide and a **decocking lever** on the left side. When the hammer is cocked, the decocking action brings the hammer to the **half-cock position** . Decocking allows the weapon to be on safe while a cartridge is chambered.

Fixed sight

The **fixed sight** is simple, robust, and suitable for recreational shooting. It doesn't offer fine adjustments but limits the risk of misalignment during regular use.

Interview and recommendations

Maintain the barrel and moving parts after each use to preserve accuracy. Protect the wooden grips with a light oil or wax suitable for wood; avoid harsh products. Use quality .22LR ammunition to ensure reliable feeding and minimal wear.

- **Barrel type:** Rifled
- **Threaded barrel:** Yes (Optional 1/2x28 adapter)
- **Sight type:** Fixed sight
- **Carcass:** Steel
- **Use:** Recreational shooting, training
