Versatile and accurate pistol, designed for training and recreational shooting.

The MAUSER PP7 in .22LR combines compactness, low recoil and modern ergonomics for shooting range sessions.

- **brand:** MAUSER
- **model:** PP7
- **caliber:** .22LR
- **capacity:** 10 shots
- **barrel length:** 11.43 cm
- **Safety:** Safety catch + decocking
- **barrel type:** Rifled
- **total length:** 19 cm
- **weight:** 750 g
- **stock:** Ergonomic polymer
- **warranty:** 2 years

Ergonomics and stock

The **polymer stock** offers a stable grip and requires less maintenance compared to wood. The polymer is lightweight, moisture-resistant, and allows for ergonomically molded shapes that help position the hand consistently, improving shot accuracy.

Security

The .22LR Mauser PP7 pistol features an **ambidextrous safety** on the slide and a **decocking lever** on the left side. When the hammer is cocked, the decocking action brings the hammer to the **half-cock position** . Decocking allows the weapon to be on safe while a cartridge is chambered.

Rifled barrel

A **rifled barrel** has internal helical grooves that spin the bullet. This spin stabilizes the projectile and improves accuracy at range distances, which is particularly useful with the **.22LR** caliber.

.22LR

The **.22LR** caliber is a rimfire cartridge, prized for its low cost and minimal recoil. It allows for gradual learning and numerous training sessions without excessive budget constraints.

Steel frame

The use of a **steel** structure provides rigidity and longevity to the mechanical assembly. Steel withstands repeated stresses and, when properly maintained, ensures dimensional consistency that is conducive to precision.

Use and compliance

Intended for recreational shooting and range training. In France, this **pistol** belongs to category B and its purchase/use is subject to applicable legal regulations (prefectural authorizations and shooting range rules). Please ensure you comply with current regulations.

Usage recommendations

Use high-quality .22LR ammunition to ensure reliable feeding and preserve the mechanism. Regularly clean the barrel and moving parts to maintain accuracy and longevity. The polymer requires only simple maintenance (wiping, checking fasteners).

- **Threaded barrel:** Yes (Optional 1/2x28 adapter)
- **Sight type:** Fixed sight
- **Use:** Recreational shooting, training
