- **Protection** : Waterproof and dustproof
- **Base** : **Short 55mm Recknagel** - perfect for FAIR express
- **Sheath** : **black, 122 cm** - lightweight, understated and practical

Designed for FAIR express rifle users, this pack includes everything you need to equip and transport your firearm efficiently. The reliable and intuitive Microdot MS 30 Micro red dot sight is accompanied by a robust Recknagel base and a protective, discreet case.

A bright and reliable red dot

The Microdot MS 30 Micro is a Japanese-made red dot sight that delivers a crisp image and an extremely visible dot, even in bright daylight. Its aircraft-grade aluminum chassis ensures excellent resistance to shocks, water, and dust.

Direct mounting with Recknagel base

The short 55mm Recknagel base was chosen for its perfect compatibility with FAIR express sights. It allows for a secure and precise mounting, ensuring quick and reliable deployment of the red dot sight.

A suitable and elegant sheath

The 122cm case completes this package. Simple and well-designed, it allows you to carry your double rifle with or without a scope mounted. Lightweight and robust, it effectively protects your firearm while facilitating your movements.

FAQ

Is the red dot compatible with all FAIR express rifles?

Yes, thanks to the short Recknagel base supplied, the red dot can be mounted on most FAIR express rifles equipped with a suitable rail.

Can I store my express in the sheath?

No, the scabbard is designed for transport only. Prolonged storage may damage the bluing or nickel plating of the weapon.

Is the intensity of the red dot adjustable?

Yes, it has 11 levels of light intensity to adapt to all lighting conditions.
