An ergonomic and high-performance hunting rifle

Optimized shooting comfort

The X Hunter features a stock that is adjustable in all essential dimensions: stock length, cheek rest height, and recoil. This allows for perfect adjustment of the shooting position according to the user's size or equipment (optics, clothing, etc.).

True precision on the ground

With a **56cm barrel** treated with **Black Cataphoresis** , the Monza X Hunter ensures excellent bullet retention, enhanced longevity and immediate compatibility with accessories thanks to the **thread** at the end of the barrel.

Designed for action and adaptability

Easy accessory assembly

It comes standard with a **picatinny rail** for optics, a **bipod rail** under the barrel and a **monopod rail** at the rear, allowing stable support in all conditions.

Weight and balance for mobile hunting

Its **weight of 3.4 kg** in standard configuration allows a good balance between stability when shooting and maneuverability in the field, especially in driven hunts or stalking.

FAQ - Frequently Asked Questions

Is the Monza X Hunter suitable for driven hunts?
Yes, thanks to its balance, robustness and 4+1 shot capacity, it is perfectly suited for driven hunts.

Is the 30.06 caliber versatile for hunting?
The **.30-06 Springfield** is one of the most widely used calibers in France for hunting medium to large game. It offers power, accuracy, and readily available ammunition.

How do I adjust the stock of the X Hunter?
The stock is **modular without tools** : the cheek rest height, stock length and butt plate can be adjusted in seconds.

What type of optical mount is compatible?
It is equipped with a standard **Picatinny rail** allowing the installation of all types of modern optics.

Is the barrel compatible with a moderator?
Yes, the barrel is **threaded** to accommodate a sound moderator or muzzle brake suitable for the caliber.
