Designed for PRS precision, tailored for the elite of sport shooting.

Designed for elite shooters and demanding competitors, the **Victrix V LE .308 Match** combines top-tier Italian engineering with precision ergonomics. With its lightweight, one-piece chassis, **ProAngle Venus V** muzzle brake, and **CERAKOTE Crimson** finish, it stands out as an essential benchmark on PRS shooting ranges.

- **Caliber** : .308 Match - 1/11 twist
- **Barrel** : 66 cm (26") - AISI 420 steel, match-grade buttoned
- **Chassis** : one-piece aluminum, CERAKOTE Crimson finish
- **Weight** : 6.70 kg (without optics, with muzzle brake)
- **Rail** : Integrated 20 MOA slope
- **Trigger pull** : Victrix Sporting Plus adjustable - 400g (single trigger pull)
- **Magazine** : 10 rounds, metal, double column
- **Bolt** : 3 asymmetrical studs with PVD finish
- **Muzzle brake** : Victrix ProAngle Venus V - 4 chambers
- **Stock** : EVO folding, with isolated and adjustable cheek rest
- **Interfaces** : full Arca rail + Anschutz rail + QD attachments
- **Glasses not included**

Designed to excel in precision shooting disciplines, the Victrix V LE .308 Match embodies Italian excellence at the service of the shooter. With its machined one-piece chassis, fully adjustable ergonomics, and impressively smooth mechanics, every detail is engineered for performance.

Chassis & Ergonomics

The one-piece machined lightweight alloy chassis ensures optimal rigidity and perfect mechanical consistency. Its **CERAKOTE Crimson** finish is more than just aesthetically pleasing: it provides lasting protection against abrasion and corrosion. The EVO folding stock offers micrometric adjustments for height and length, with an isolated cheek rest for maximum comfort.

Mechanics and precision

The 26" AISI 420 match-grade barrel is lipped and button-rifled for extreme accuracy. The bolt with three asymmetrical lugs and an interchangeable lever offers remarkable smoothness. All of this rests on an AISI 630 action machined to tight tolerances and finished with a meticulous PVD coating.

Compatibility and modularity

The full-length Arca rail, complemented by a central Anschutz rail, allows for immediate compatibility with all PRS accessories. QD attachment points offer maximum sling flexibility. The interchangeable AR zero-angle grip and adjustable 400g trigger allow for extensive customization, meeting the demands of competitive athletes.

FAQ

Is the rifle compatible with other optics?

Yes, it is equipped with a 20 MOA Picatinny rail allowing the mounting of most tactical or PRS scopes available on the market.

What is the advantage of the full-length Arca rail?

The full-length Arca rail allows for quick and flexible mounting of tripods, shooting bags or other accessories directly under the barrel, without an adapter.

Can the original trigger setting be adjusted?

Yes, the Victrix Sporting Plus trigger is adjustable in weight and travel, for a crisp break tailored to your shooting style.
