The lightest in the Venti range, designed for gas-operated semi-automatic rifles.

The lightest model in the Venti series, the **Stalon XS-Venti** is designed for gas-operated semi-automatic rifles. Its telescopic **over-barrel** design maximizes compactness without sacrificing effectiveness.

- **Special semi-automatic gas-operated**
- **Noise attenuation** : up to -27 dBc (.308 Win)
- **Weight** : from 299 g (without barrel support)
- **Total length** : 196.5 mm (including 108 mm in front of the barrel)
- **Design** : telescopic - extends only 108 mm beyond the barrel
- **Diameter** : 49 mm
- **Materials** : anodized aluminum + stainless steel baffle (1st floor)
- **Thread sizes** : M14x1 - max. .30 caliber - M15x1 - max. .375 caliber
- **Function** : Reduces back gases without affecting the weapon's cycling

The **Stalon XS-Venti** stands out as the ideal solution for shooters seeking an ultra-compact, lightweight sound moderator optimized for gas-operated semi-automatic rifles. Everything is designed for maneuverability and consistent firing cycles, without compromising safety or durability.

Acoustic performance and balance

With a noise reduction of up to **-27 dBc** in .308, the XS-Venti offers excellent hearing comfort while controlling recoil. The result: a more stable rifle, even during rapid fire. Its telescopic (over-barrel) design maintains a compact profile with a forward travel of only 108 mm.

Modular design and premium materials

Part of the **Stalon X-Series** , this sound moderator is compatible with the XS, X, and XE rear modules. The entire assembly is made of high-quality **anodized aluminum** , with a **stainless steel** baffle to absorb initial sound pressure. The stainless steel threading ensures reliable, long-term mounting.

Dual threaded version

- **M14x1** : for calibers up to .30 (.308 Win, .30-06, etc.)
- **M15x1** : for calibers up to .375 (.338, etc.)

The XS-Venti is particularly recommended for modern semi-automatic platforms used in dynamic hunting or demanding sport shooting.

FAQ

Is it necessary to adjust the weapon's gas system?

No, the XS-Venti is designed to operate without modification. Its internal geometry stabilizes pressure without disrupting recharging.

Is it suitable for active hunting or dynamic shooting?

Yes. Its lightweight design, compact size and excellent gas management make it an ideal choice for hunting on the move or fast-paced shooting sessions.

How does it differ from other Stalon models?

The XS-Venti is the lightest model in the Venti series, specifically designed for semi-automatic shotguns. Other models in the X-Series offer greater recoil attenuation but come with a larger size and heavier weight.
