Compact and powerful, the Microdot Classic 10x42ED binoculars offer an excellent balance between portability, magnification, and optical quality. Ideal for field observation enthusiasts, they stand out for their image clarity, even in low light.

ED optics: precision and contrast

Extra-low dispersion (ED) lenses reduce chromatic aberrations and improve detail rendering. Contours, textures, and color nuances are clearly perceived - a true comfort in use.

Construction designed for outdoor use

Waterproofing & robustness

Designed to withstand the elements, these binoculars are nitrogen-filled and completely waterproof. The rubberized outer coating provides a good grip and protection against minor impacts.

Retractable eye shields & integrated covers

The retractable soft eyecups ensure good comfort, even for eyeglass wearers. The lenses are protected by hinged caps attached to the body-a practical solution to prevent loss.

Handling and included accessories

Balanced design and low weight

Weighing only 486g and measuring 15cm in length, the Microdot Classic 10x42ED binoculars are easy to handle with one hand. Their natural balance prevents fatigue during prolonged use.

Complete ready-to-use kit

Supplied with a neck strap, padded carrying case, microfiber cloth and instructions in several languages, they are immediately ready to accompany your outings.

FAQ

Can binoculars be used with glasses?

Yes, they are equipped with retractable soft eye shields, specially designed for glasses wearers.

Can they be used in the rain?

Yes, the Microdot Classic 10x42ED are waterproof and nitrogen-filled to prevent internal condensation.
