### High brightness and remarkable sharpness until dusk.

Designed for low-light conditions, the **Microdot Classic 8x56ED binoculars** combine a 56mm objective lens diameter with **ED** lenses for optimal light transmission. Robust, waterproof, and supplied with accessories, they are ideal for demanding observers.

- **Brand** : Microdot
- **Model** : Classic 8x56ED
- **Magnification** : 8x
- **Lens diameter** : 56 mm
- **Optics** : ED (Extra-low Dispersion) lenses
- **Waterproofing** : Waterproof / nitrogen filled
- **Eyecups** : Retractable eyecups for glasses wearers
- **Protection** : Integrated and hinged lens covers
- **Weight** : 1490 g
- **Dimensions** : 17 x 14.5 x 6 cm
- **Accessories included** : Strap, bag, cleaning cloth, instruction manual

The Microdot Classic 8x56ED binoculars are designed to offer exceptional visibility in the most challenging lighting conditions. Thanks to their 56mm lenses, they capture maximum light—a significant advantage at dawn, dusk, or in dense forests.

### A bright and high-contrast optic

## **ED lenses and 56 mm diameter**

The combination of the 56mm diameter and ED (Extra-low Dispersion) lenses ensures a sharp, clear, and high-contrast image. The 8x magnification allows for stable and comfortable viewing, even handheld.

## **Waterproofing and robustness in the field**

### **Nitrogen-proof design**

Waterproof and nitrogen-filled, these binoculars are resistant to rain, thermal shock, and internal fogging. Their rubber coating improves grip, even with gloves or in wet conditions.

### **Integrated blinders and protective eyewear**

The retractable soft eyecups offer optimal comfort, even for eyeglass wearers. The integrated lens caps prevent loss and protect the lenses from dust.

### **Long-term viewing comfort**

### **Stability and balance**

Weighing 1490 g and with a balanced design, these binoculars are easy to handle from a stand, tripod, or handheld. A standard thread is provided for quick mounting on an adapter.

### **Complete accessories included**

Delivered with their carrying case, a padded strap, a microfiber cloth and an instruction manual, they are ready to accompany you on all your outings, even extended ones.

## **FAQ**

### **Are these binoculars suitable for observation in low light?**

Yes, their 56mm diameter allows them to capture maximum light, making them ideal at dawn, dusk or in overcast weather.

### **Is wearing glasses compatible with this model?**

Yes, the rubber eyecups are retractable, allowing for comfortable use with prescription or sunglasses.

### **Can they be mounted on a tripod?**

Yes, they have a standard screw thread located under the central bridge, compatible with classic tripod adapters.
