Robust and discreet mounting system for PARD under-barrel cameras.

The **PARD MT6 rifle mount** allows for the installation of a **PARD Action 4K** camera under the barrel, offering exceptional stability and perfect compatibility for hunting and sport shooting. Designed to withstand recoil, it integrates easily without unbalancing the firearm.

- **Compatibility** : **PARD Action 4K** camera
- **Position** : under-barrel mount
- **Compatibility:** MT6-2 for rifles (Ø18 to 23mm) and MT6-2S for carbines (Ø15 to 19mm)
- **Mounting** : secure, stable, recoil-resistant
- **Structure** : compact, lightweight and discreet
- **Use** : hunting and sport shooting
- **Manufacturer** : **PARD**

Designed for demanding shooters, the PARD MT6-2 mount makes it easy to install a 4K camera directly under the barrel, without compromising the balance or handling of the weapon.

Technical and discreet assembly

This mounting bracket was designed to meet the needs of hunters and sport shooters who want to accurately record their shots. Thanks to its compact design, the MT6-2 easily adapts to different barrel profiles without creating any noticeable imbalance.

Designed for durability

Robust and stable, the mount withstands the mechanical stresses of recoil, even with powerful calibers. The absence of vibration or misalignment guarantees optimal image quality, session after session.

PARD Action 4K compatibility

The MT6-2 was specifically developed for the **PARD Action 4K** , an ultra-high-definition action camera. Together, they form a reliable and high-performance recording solution for capturing every moment of shooting. The MT6-2 mount is for rifle barrels with diameters from 18 to 23mm, and the MT6-2S is for carbine barrels with diameters from 15 to 19mm.

FAQ

Is this setup compatible with cameras other than the PARD Action 4K?

No, the MT6-2 is designed exclusively for the PARD Action 4K camera. For other models, use a dedicated mount.

Can it be used on a weapon with high recoil?

Yes, the MT6-2 is designed to withstand the high mechanical stresses associated with firing, including with powerful calibers.
