Compactness, responsiveness and robustness are at the heart of the MOD1 architecture.

The **Super Duty MOD1 SBR 11.5''** is a compact semi-automatic rifle designed to combine **responsiveness, reliability** , and **modularity** . Its optimized design, centered around the short 11.5" barrel, makes it an ideal platform for confined spaces, without compromising accuracy or recoil control.

- **Caliber** : 5.56 mm
- **Canon** : 11.5" CHF, chrome-lined, Geissele tapered profile
- **Gas** : Carbine system, Super Compact block, Super 42® spring + H3 buffer
- **Lock** : **Stressproof®** , 5x longer lifespan than standard
- **Rebound** : SSA-E X® two-stroke with Lightning Bow® curve
- **Muzzle brake** : HUXWRX Flash Hider-QD 556
- **Rail** : MK16 10.5" with Geissele center tab and QD stainless steel inserts
- **Controls** : ambidextrous, ACH® lever, Super Configurable security
- **Stock** : B5 Systems Sopmod / **Grip** : Geissele A17
- **Weight** : approx. 2.93 kg / Length: 74 to 82 cm

The SBR (Short Barrel Rifle) version of the Super Duty MOD1 features an 11.5" barrel designed for operators seeking maneuverability and effectiveness in confined spaces. Its configuration does not compromise the reliability or ballistic performance expected of a high-end platform.

Canon compact, maximum precision

The 11.5" cold hammer-forged, chrome-lined barrel offers increased durability while maintaining accurate groupings. Geissele's signature tapered profile ensures an ideal balance between weight

and rigidity.

Stressproof® Technology & Internal Reliability

Like the longer versions, this model incorporates the **Stressproof® bolt,** machined from Carpenter 158+ steel, offering exceptional fatigue resistance. The bolt assembly is completed by a reliable BCG spring and a **Super 42®** spring with an H3 buffer, ensuring smooth and consistent cycling.

Modularity designed for the terrain

The weapon's compact size is optimized by a 10.5" **MK16 rail** with integrated stainless steel QD inserts and a center-tab interface for a secure lock. The ACH® charging handle, ambidextrous safety, and A17 grip complete its highly functional ergonomics.

Nanoweapon® treatment: ultimate protection

Available exclusively from Geissele, this coating offers extreme resistance to abrasion and chemicals. Its non-porous nature facilitates maintenance and improves the lifespan of internal moving parts.

FAQ

Is this 11.5" model available for professionals in France?

Yes, this SBR model is classified in category B. It is reserved for holders of a valid prefectural authorization, in particular security professionals or sport shooting professionals.

What are the advantages of the 11.5-inch barrel?

The 11.5" barrel offers an excellent compromise between compactness, maneuverability, and terminal performance in 5.56 mm. It remains effective up to intermediate distances while reducing bulk.

Is the Nanoweapon® treatment sensitive to heat?

No, the Nanoweapon® treatment is applied at low temperatures and designed to withstand high thermal stresses. It retains its anti-wear properties even after intensive use.
