A camouflaged air rifle for outdoor shooting enthusiasts.

GAMO break barrel rifle in 4.5mm caliber with a sumptuous rock and mountain colour decoration.

- Rifled steel barrel with polymer sheath and muzzle brake
- Adjustable rear sight and fiber optic front sight under tunnel
- Trigger with safety under the trigger guard
- Rubber shock-absorbing pad

A perfect recreational rifle for precision target shooting or plinking (shooting at cans).

Its power of 19.9 joules classifies it in category D in France, therefore it is available for sale freely to people over 18 years of age upon presentation of an identity document.

Reloading by breaking (bending) the barrel allows you to fire without any limit other than the number of pellets you have. No need for gas or CO2 refills, just the strength of your arms!

Its 4.5mm caliber makes it universal; it is the easiest to find in all gun shops and many other points of sale.
