## High-precision aluminum interface for RMR/SRO on Kimber 2K11.

The **C&H Precision optical plate** for **the Kimber 2K11** allows the mounting of optics conforming to the **Trijicon RMR/SRO** standard. Machined from **6061 aluminum** on HAAS CNC centers and equipped with an **S7 tool steel** insert, it ensures a precise and durable locking mechanism.

- **Compatibility** : Kimber 2K11
- **Footprint** : Trijicon RMR / SRO
- **Main material** : CNC machined 6061 aluminum
- **Insert** : T-nut made of S7 tool steel
- **Finish** : Type III MIL-SPEC black anodizing

Specifically designed for the Kimber 2K11, this C&H Precision adapter plate allows access to optics with Trijicon RMR and SRO mounts. The assembly prioritizes a rigid, durable, and perfectly aligned mount to fully utilize the red dot sight's capabilities.

### Hybrid aluminum/tool steel construction

The plate body is machined from 6061 aluminum to combine lightness and strength. The addition of an S7 tool steel T-nut reinforces the mounting area: in use, this results in real mechanical stability, especially during repeated cycles.

### CNC machining and tight tolerances

Each part is produced on HAAS CNC machines with exceptionally tight tolerances. This level of precision minimizes unwanted play and ensures consistent repeatability of the optical assembly.

### MIL-SPEC Type III Finish

Type III MIL-SPEC black anodizing provides effective protection against wear and corrosion. A subtle detail, but essential for maintaining the part's integrity over time.

### FAQ

#### Is this plate compatible with all RMR optics?

It is compatible with optics using the standard Trijicon RMR/SRO footprint. It is recommended to verify the exact specifications of the optic before installation.

**Why integrate an S7 tool steel insert?**

The S7 tool steel insert reinforces the fixing area and improves mechanical resistance, ensuring reliable and durable retention of the optics.

**Is the license plate specific to Kimber 2K11?**

Yes, this version is developed exclusively for the Kimber 2K11. Compatibility with other models is not guaranteed.
