The **Caesar Guerini Invictus III Limited** belongs to a generation of over-and-under shotguns designed for demanding shooters. Built to withstand heavy use, it combines extremely durable mechanics with a particularly elegant finish characteristic of the Italian brand's Limited editions.

A mechanism designed to last

Patented Invictus System

The heart of the rifle lies in the **Invictus** mechanism, developed by **Caesar Guerini** . Its principle: **interchangeable trunnions** combined with a reinforced locking system. In practice, this ensures a perfectly adjusted closure even after a very large number of shots.

Endurance for intensive sport shooting

Whether for sporting, trap, or regular training, this shotgun is designed for high shooting volumes. The design of the receiver and locking surfaces helps maintain accuracy and consistency season after season.

A Limited Edition with a distinctive style

Selected wood

The **Limited** editions feature carefully selected, **premium-quality walnut** . The pronounced grain and oiled finish provide a striking visual appeal while maintaining excellent grip.

Premium engravings and finish

The receiver features elegant engraving and exceptionally refined finishing. On the firing line, the weapon stands out immediately - without ever sacrificing the understated elegance characteristic of high-end competition firearms.

Configurations adapted to the disciplines

Sporting or Trap

The **Invictus III Limited** platform is offered in various configurations adapted to the main clay target shooting disciplines. Depending on the version chosen, the stock geometry, overall balance, and barrel lengths meet the specific requirements of **Sporting** or **Trap shooting** .

Several barrel lengths available

Different barrel lengths allow the balance and behavior of the weapon to be adjusted according to the shooter's preferences and the discipline practiced.

FAQ

What is Caesar Guerini's Invictus mechanic?

The Invictus mechanism is a patented system using interchangeable trunnions and a reinforced locking mechanism. This design aims to preserve the rifle's longevity and maintain precise closure even after a very large number of shots.

What disciplines is the Invictus III Limited intended for?

Depending on its configuration, the Invictus III Limited is suitable for clay target shooting disciplines such as Sporting or Trap. The versions differ primarily in stock geometry, balance, and barrel lengths.

What does the Limited version offer compared to the standard versions?

The Limited versions are distinguished by selected premium woods, specific engravings and a particularly careful finish, while retaining the Invictus mechanics designed for intensive sport shooting.
