Victrix precision available in .22 LR for training and demanding sport shooting.

The **Victrix Kinetic** in **.22 LR** translates the requirement of **precision shooting** into a **rimfire** version ideal for training and competition.

- **Caliber:** .22 LR
- **No scratches:** 1:16"
- **Barrel length:** 22" (56 cm)
- **Weight:** 7.85 kg (without optics, with charger)
- **Total length:** 805 mm (folded) / 1052 mm (unfolded)
- **Canon:** Match grade, broken-in, heavy profile
- **Chassis:** High-strength aluminum monoblock
- **Rail:** Picatinny 20 MOA (420 mm)
- **Trigger:** Adjustable Victrix Sporting Plus (~250g)
- **Magazine:** 10 rounds polymer
- **Thread:** Protected by a ring
- **Finish:** Natural with transparent protection

A rimfire platform dedicated to precision

With this **.22 LR** version, the **Victrix Kinetic** retains the DNA of long-range platforms. On the firing line, impressive stability is immediately apparent. The 22-inch **match-grade barrel** , with its heavy profile, allows for the best results from **rimfire** ammunition with remarkable consistency - ideal for **precision shooting** at medium range or technical training.

One-piece chassis and advanced adjustments

The **one-piece aluminum chassis** guarantees uncompromising rigidity. The adjustable stock (length, height, isolating cheek rest) easily adapts to each shooter. In practice, this results in increased comfort and repeatability, especially during long shooting sessions or in dynamic positions such as the PRS (Personal Recoil System).

Complete ergonomics and modularity

The handguard incorporates **Anschutz** and **Arca** rails along its entire length, allowing for easy mounting of bipods, tripods, or accessories. The **20 MOA Picatinny** rail provides ample elevation for optimal use of optics, even at extended distances with .22 LR ammunition.

Reliable and smooth mechanics

The precision-machined **AISI 630** steel action, combined with a one-piece bolt with two rear lugs, ensures a smooth and consistent cycle. The presence of a double extractor improves extraction reliability - a crucial factor in **rimfire shooting** . The **Victrix Sporting Plus** trigger, set at around 250g, offers a crisp and controlled break.

Complete and scalable configuration

Delivered with modular counterweights, a removable rail, a carrying case, and essential accessories, this platform is ready to use. It also provides an excellent base for upgrading to more advanced configurations to suit the shooter's needs.

FAQ

Is this rifle suitable for long-distance training?

Yes, in .22 LR it allows you to reproduce the conditions of long-range shooting at a lower cost, ideal for technical training.

What type of charger is being used?

It is equipped with a 10-shot polymer magazine with a single battery, suitable for the .22 LR caliber.

Is the trigger adjustable?

Yes, the Victrix Sporting Plus trigger pull is adjustable and factory-set around 250g for a precise start.
