A long-range shooting platform designed for absolute precision.

The **Victrix Kinetic** is a high-end **precision shooting** rifle, designed for performance in **long-range shooting** and **competition** .

- **Calibers available:** .308 Match 1:10" or 1:11", 6.5 Creedmoor 1:7.5", 6 Creedmoor, 6 XC 1:8"
- **Barrel length:** 27" (68 cm)
- **Weight:** 8.80 kg (without optics, with charger)
- **Total length:** 998 mm (folded) / 1245 mm (unfolded)
- **Canon:** Match grade, broken-in, heavy profile
- **Chassis:** High-strength aluminum monoblock
- **Rail:** Picatinny 20 MOA (420 mm)
- **Trigger:** Adjustable Victrix Sporting Plus (~400g)
- **Magazine:** 10 rounds metal
- **Muzzle brake:** Victrix Kinetic "Short"
- **Finish:** Natural with transparent protection

A platform designed for long-range shooting

On the field, the **Victrix Kinetic** immediately stands out for its stability. Its 27-inch **match-grade barrel** offers excellent ballistic consistency, ideal for fully exploiting calibers like the **.308 Match** or **6.5 Creedmoor** . The heavy profile effectively absorbs vibrations, resulting in consistent impacts,

even during extended bursts of fire.

One-piece chassis and advanced ergonomics

The **one-piece aluminum chassis** ensures exceptional rigidity. In practice, this is immediately noticeable: no unwanted flexing, perfect stability even when supported by a barricade. The adjustable stock (length, height, isolating cheek rest) allows the weapon to be adapted to each individual's physique - a real advantage for firing in rapid succession without fatigue.

Modularity and integrated accessories

The oversized handguard incorporates **Anschutz** and **Arca** rails along its entire length. As a result, bipods, tripods, side accessories-everything mounts easily. The **20 MOA Picatinny** rail allows for full use of optics for **ultra-long-range shooting** , without compromise.

Precision mechanics and reliability

The **AISI 630** steel action, machined from a solid block, guarantees remarkable robustness and smoothness. The three-lug asymmetrical bolt ensures secure and rapid locking. The **Victrix Sporting Plus** trigger, factory-set at around 400g, offers a crisp and clean break - exactly what you expect in **precision shooting** .

Premium equipment included

Supplied with a muzzle brake, modular counterweights, a removable rail, and a carrying case, the platform is ready to use. Every element has been designed to optimize balance and user comfort.

FAQ

What calibers are available for this model?

The platform is offered in .308 Winchester, 6.5 Creedmoor, 6 Creedmoor and 6 XC, with rifling twist rates adapted to each caliber.

Is this rifle suitable for long-range shooting?

Yes, it is specifically designed for long-range precision shooting thanks to its match-grade barrel, 20 MOA rail, and high stability.

Is the stock adjustable?

Yes, the stock has multiple adjustments (length, cheek rest, horizontal and vertical positions) for a precise fit to the shooter.
