The Motion platform is adapted for rimfire for precise and realistic training.

The **Victrix Motion** in **.22 LR** offers an ideal **precision shooting** solution for **rimfire** training and improvement.

- **Caliber:** .22 LR
- **No scratches:** 1:16"
- **Barrel length:** 22"
- **Weight:** 5.90 kg (without optics, with charger)
- **Total length:** 1055 mm
- **Barrel:** Heavy profile special steel
- **Chassis:** High-strength aluminum
- **Rail:** Removable 20 MOA Picatinny
- **Trigger:** Adjustable Victrix Sporting Plus (~250g)
- **Magazine:** 10 rounds polymer
- **Thread:** Protected by a ring
- **Finish:** Cobalt Strike

A rimfire platform inspired by long-range shooting

With this **.22 LR** version, the **Victrix Motion** adopts the design principles of long-range shooting platforms. On the firing line, excellent stability is immediately apparent. The **heavy 22-inch barrel** allows for consistent groupings, perfect for **precision shooting** and technical training at medium range.

Rigid chassis and customizable ergonomics

The high-strength **aluminum chassis** ensures consistent rigidity. The adjustable stock (horizontal and vertical axes) allows for precise adjustment to the shooter's physique. In practice, this translates into improved shot repeatability and increased comfort, even during long sessions.

Advanced modularity for sport shooting

The handguard incorporates **Anschutz** and **Arca** rails, as well as quick-release side interfaces. This configuration allows for easy adaptation of the rifle with a bipod, tripod, or other specific accessories. The removable **20 MOA Picatinny** rail offers valuable flexibility for mounting optics suitable for **rimfire shooting** .

Smooth and reliable mechanics

The precision-machined action, combined with a bolt featuring two asymmetrical rear lugs, ensures smooth operation. The dual extractor enhances reliability, a crucial factor in **.22 LR** . The **Victrix Sporting Plus** trigger, set at around 250g, delivers a crisp break, particularly appreciated for **precision shooting** .

An ideal base for training and progression

Delivered with a carrying case and essential accessories, this platform is immediately operational. It allows you to practice the fundamentals of shooting with reduced ammunition costs, while maintaining a feel similar to long-range setups.

FAQ

Is this rifle suitable for long-distance training?

Yes, it allows you to reproduce the conditions of long-range shooting with a .22 LR caliber, ideal for technical training.

Is the rail compatible with different optics?

Yes, the 20 MOA Picatinny rail allows the mounting of most precision shooting optics.

What type of charger is being used?

The rifle uses a 10-shot polymer magazine with a single battery, suitable for the .22 LR caliber.
