- **Magazine:** 10 rounds metal
- **Muzzle brake:** Removable Victrix ProAngle
- **Finish:** Walnut

A precision rifle with a refined design

The **Victrix Lynx** immediately stands out with its **walnut** finish. But beyond aesthetics, it offers a true **precision shooting** platform. The **26-inch match-grade barrel** ensures excellent consistency, whether firing **.308 Win** or **6.5 Creedmoor** . On the firing line, the feeling is clear: stability, smoothness, and consistency.

Hybrid structure of wood and aluminum

The unique feature of this model lies in its hybrid design. The wooden stock is combined with an internal aluminum structure, ensuring rigidity and precision. The integrated **Arca-Swiss** rail runs the entire length of the stock, allowing for optimal positioning on a support while maintaining an elegant profile - a rare balance between tradition and technology.

Ergonomics and shooting comfort

The adjustable cheek rest and butt plate allow for a perfect fit of the rifle to the shooter. In practice, this improves stability and shot repeatability. The adjustment system remains simple and effective, even during extended shooting sessions.

High-precision mechanics

The machined action, combined with a **three-lug asymmetrical** locking system, offers smooth and secure operation. The **Victrix Sporting Plus** trigger, set at around 400g, provides a crisp break, perfectly suited for **long-range shooting** and **precision target shooting** .

Complete and scalable configuration

Delivered with a **Victrix ProAngle** muzzle brake, 20 MOA rail, and carrying case, the **Victrix Lynx** is ready to use. It will appeal to both performance-oriented shooters and those who appreciate a more traditional aesthetic.

FAQ

What calibers are available for the Victrix Lynx?

It is offered in .308 Winchester and 6.5 Creedmoor with rifling twist rates adapted for precision shooting.

Is this rifle suitable for long-range shooting?

Yes, thanks to its 26" barrel, 20 MOA rail and rigidity, it is perfectly suited for long-range precision shooting.

What are the advantages of a wooden stock?

It provides natural comfort, excellent grip and high-end aesthetics while maintaining rigidity thanks to the internal aluminum structure.
