A compact and efficient rimfire platform

The **Victrix Lupus** in **.22 LR** retains the DNA of the centerfire model in an even more compact format. With its **16-inch barrel** , it offers remarkable maneuverability. On the shooting range, its lightness and responsiveness are immediately apparent, making it ideal for **precision shooting** at short and medium ranges.

Wood aesthetics and hybrid design

The **walnut** stock provides a natural grip and a refined look. The internal aluminum structure ensures the rigidity necessary for accuracy. The hybrid handguard incorporates accessory

interfaces, allowing for easy configuration adjustments to suit individual needs.

Simplicity and ergonomics

The fixed stock with butt plate offers an intuitive shooting position. This simplicity is an advantage for shooters looking for a reliable platform without complex adjustments, while maintaining excellent user comfort.

Reliable mechanics in .22 LR

The precision-machined action, combined with a double-lug rear bolt and dual extractor, ensures smooth and consistent operation. The **Victrix Sporting Plus** trigger, set at around 250g, delivers a crisp break, perfectly suited for **rimfire precision shooting** .

An ideal solution for training

Delivered with a 20 MOA rail, carrying case and essential accessories, the **Victrix Lupus** is an excellent platform for progressing in **.22 LR** , with sensations close to more powerful models.

FAQ

Is this rifle suitable for beginners?

Yes, its .22 LR caliber, simplicity and handling make it an excellent option for starting out in precision shooting.

What is the advantage of a short barrel in .22 LR?

A short barrel improves handling and remains perfectly suited to the usual distances of .22 LR shooting.

Can a lens be mounted?

Yes, thanks to the 20 MOA Picatinny rail, compatible with the majority of shooting optics.
