- **Rail:** Picatinny 45 MOA
- **Trigger pull:** Adjustable Victrix Sporting Plus (~500g)
- **Power supply:** Single shot
- **Muzzle brake:** Removable Victrix ProAngle
- **Finish:** Nightfall Blue

A platform dedicated to extreme long-range shooting

The **Victrix Crown MK2** is designed without compromise for **ultra-long-range shooting** . Chambered in **.408 CheyTac** or **.375 CheyTac** , it allows you to take advantage of exceptional distances. In the field, every detail is designed for stability and repeatability - this is a platform clearly focused on pure performance.

Long barrel and optimized ballistics

With its **36- to 38-inch barrels** , this rifle maximizes muzzle velocity and projectile consistency. The stainless steel barrel with **Cerakote** coating ensures durability and resistance to demanding conditions. The **Victrix ProAngle** muzzle brake helps control the significant recoil generated by these calibers.

One-piece chassis and maximum stability

The **one-piece aluminum chassis** offers exceptional rigidity. The fully adjustable stock (cheek rest, butt plate, rearward tilt) allows for precise adjustments. In practice, this translates into remarkable stability, even when shooting at very long ranges.

Rail 45 MOA and optical network operation

The **45 MOA Picatinny** rail, present on the action and barrel cover, allows for full use of optics designed for **extreme long-range shooting** . This significant angle is essential for maintaining sufficient adjustment range at exceptional distances.

Robust mechanics and consistent precision

The single-shot action, machined from a solid block of steel, guarantees robustness and reliability. The **three-lug symmetrical** locking system ensures secure locking. The **Victrix Sporting Plus** trigger, set at around 500 g, offers a crisp and consistent break, essential for this type of demanding shooting.

A complete setup for expert shooters

Delivered with a carrying case, muzzle brake and accessories, the **Victrix Crown MK2** is aimed at experienced shooters looking for a platform dedicated to extreme performance.

FAQ

What calibers are available for the Crown MK2?

It is offered in .408 CheyTac and .375 CheyTac, two calibers dedicated to very long-range shooting.

Why a 45 MOA rail?

The 45 MOA rail allows full use of optics over extreme distances while maintaining a sufficient adjustment range.

Is this rifle suitable for classic long-range shooting?

It is primarily designed for extreme long-range shooting, beyond the classic distances of sport shooting.
