An ELR repeating platform to push the limits of extreme firing.

The **Victrix Throne MK2** is an **extreme precision** repeating rifle, designed for **ELR (Extreme Long Range) shooting** with very high power calibers.

- **Calibers available:** .408 CheyTac 1:10", .375 CheyTac 1:8"
- **Barrel length:** 38" - 96.5 cm (.408 CT) / 36" - 91.4 cm (.375 CT)
- **Weight:** 13.5 kg (.408 CT) / 13.1 kg (.375 CT)
- **Total length:** 1400 / 1660 mm (.408 CT) - 1350 / 1608 mm (.375 CT)
- **Barrel:** Stainless steel with Cerakote coating
- **Chassis:** High-strength aluminum monoblock
- **Rail:** Picatinny 45 MOA
- **Trigger:** Adjustable Victrix Sporting Plus (~500g)
- **Magazine:** 7 rounds polymer
- **Muzzle brake:** Removable Victrix ProAngle
- **Finish:** Nightfall Blue

An ELR platform on repeat

The **Victrix Throne MK2** is clearly designed for **extreme long-range shooting** . Unlike single-shot versions, it features a 7-round magazine, allowing for smoother rapid fire. In the field, this is a real advantage for extended shooting sessions or ELR competitions.

Calibers designed for extreme distances

Available in **.408 CheyTac** and **.375 CheyTac** , this platform fully exploits the ballistic potential of these cartridges. The **36- to 38-inch barrels** maximize muzzle velocity and projectile stability,

essential for achieving exceptional ranges.

One-piece chassis and absolute stability

The **one-piece aluminum chassis** ensures extreme rigidity. The adjustable stock (butt plate, cheek rest, rearward tilt) allows for precise adjustments. In practice, this provides a perfectly stable platform, even under the significant stresses of ELR shooting.

45 MOA rail for specialized optics

The **45 MOA Picatinny** rail, located on the action and barrel cover, is essential for using optics with a wide traverse. It allows for a sufficient adjustment range for very long-range shooting.

Robust and smooth mechanics

The machined action ensures robustness and durability. The **symmetrical three-lug** locking system guarantees secure locking. The **Victrix Sporting Plus** trigger, set at around 500g, offers a crisp break, perfectly suited to this level of performance.

A complete setup for experienced shooters

Supplied with a **Victrix ProAngle** muzzle brake, carrying case and accessories, the **Victrix Throne MK2** is aimed at shooters looking for a high-performance, reliable and ready-to-use ELR platform.

FAQ

What is the difference with the Crown MK2?

The Throne MK2 is a repeating version with a magazine, while the Crown MK2 is a single-shot platform dedicated to extreme shooting.

Why use a 45 MOA rail?

It allows optics to be used over extreme distances while maintaining a sufficient adjustment range.

Is this rifle suitable for classic long-range shooting?

It is designed primarily for extreme long-range (ELR) shooting, beyond conventional distances.
