A robust TLD configuration with an ultra-resistant adjustable stock.

The **Howa 1500 GRS Bifrost .308 Win rifle pack** is a complete solution dedicated to **long-range shooting**, combining the precision of the HOWA action with a GRS Bifrost stock designed for robustness and ergonomics in demanding conditions.

- **Caliber:** .308 Winchester
- **Action:** HOWA 1500 Short Action (SA)
- **Canon:** 61 cm (24") pitch 1:10
- **Thread:** 5/8x24 UNEF
- **Stock:** GRS Bifrost adjustable fiberglass
- **Scope:** Microdot FFP 6-24x50 (MOA)
- **Muzzle brake:** Imperium Compact cal.30
- **Bipod:** Kastelberg Picatinny mount
- **Magazine:** Removable 5-round ATI
- **Case:** ABS 138 cm Nuprol

HOWA 1500 base: precision and reliability

The **Howa 1500** in **.308 Win** provides a solid platform for **precision shooting**. Its short action ensures excellent repeatability, while the 24-inch barrel with a 1:10 twist rate guarantees good projectile stability, even at long range.

GRS Bifrost stock: robustness and adaptability

The **GRS Bifrost** stands out thanks to its **reinforced fiberglass** construction. Designed to withstand harsh conditions, it offers excellent resistance to impacts and weather variations. The rubberized grip surfaces ensure a firm hold - even with gloves or in wet conditions.

Fully adjustable, it allows you to adjust the stock length and cheek rest to achieve a natural and consistent shooting position. The result: improved shooting comfort and increased accuracy session after session.

Imperium muzzle brake: comfort and control

The **Imperium Compact muzzle brake** effectively reduces recoil and muzzle rise. This increased stability allows for better impact observation and more controlled follow-up shots - a significant advantage in **long-range shooting** .

Microdot FFP optics: precision at all distances

The **Microdot FFP 6-24x50** scope is perfectly suited for long-range shooting. Its first focal plane reticle allows for consistent corrections at any magnification. Precise MOA adjustments facilitate fine-tuning based on distance and conditions.

Kastelberg bipod: stability on the ground

The **Kastelberg** bipod provides a stable base for shooting from the prone or supported positions. Adjustable in height and mounted on a Picatinny rail, it easily adapts to various environments. Its robust design inspires confidence from the moment it's set up.

A complete and coherent package

With its **Nuprol hard case** , **removable ATI charger** , and mounting accessories, this pack allows for quick setup. The entire system is designed to offer a consistent experience without compromising on component quality.

Additional features

- **Stock material:** fiberglass reinforced composite
- **Handles:** non-slip rubberized surfaces
- **Scope tube diameter:** 30 mm
- **Bipod adjustment:** 19 to 24 cm
- **Carrying case:** ABS secure transport

FAQ

What is the difference between the Bifrost and Fenris stock?

The Bifrost prioritizes robustness and resistance to extreme conditions thanks to its reinforced structure, while the Fenris is more oriented towards advanced ergonomics and fine adjustments.

Is this pack suitable for long-range shooting?

Yes, it is specially designed for precision shooting and long-range shooting with suitable optics, a high-performance barrel and stability accessories.

Is the stock adjustable?

Yes, the GRS Bifrost stock allows you to adjust the stock length and cheek rest to perfectly fit the shooter.
