Technical anti-slip mat for precise and safe AR15 maintenance

The **Schmeisser AR15 cleaning mat** is designed to provide a reliable, clean, and safe work surface for servicing your firearms. Its **high-quality neoprene** construction effectively protects both mechanical parts and your work surface. The technical illustration on the **Schmeisser AR15** adds significant convenience, particularly for disassembly.

- **Material** : Waterproof neoprene
- **Surface** : soft, scratch-resistant
- **Base** : non-slip coating
- **Design** : AR15 Schmeisser exploded view
- **Care instructions** : Machine washable (low temperature)
- **Transport** : Rollable, easy storage

Proper maintenance always starts with a suitable workspace. The Schmeisser AR15 cleaning mat has been designed to offer comfort, visibility, and protection at every stage of dismantling.

A support designed for AR15 maintenance

Thanks to its generous size and **neoprene** surface, this mat allows for worry-free handling of components. The parts remain stable, without risk of slipping or scratching - a detail that, in practice, makes all the difference.

Integrated technical illustration

The **AR15 exploded** view makes it easy to locate components. This is especially useful for users who are learning, but even experienced users will find it very convenient on a daily basis.

Everyday resistance and protection

Durable material

The neoprene used offers an excellent compromise: robust enough to withstand metallic handling, yet soft enough to protect sensitive surfaces.

Non-slip surface

The base coating ensures perfect stability on a workbench or table. Nothing moves - even during more technical manipulations.

Simplified maintenance

A damp cloth is all you need for a quick clean. And if necessary, the rug can be machine washed at a low temperature, without any special requirements.

FAQ

Is this mat compatible with platforms other than the AR15?

Yes, it can be used for other weapons or parts, but its marking remains specific to the AR15 platform.

Is the carpet resistant to solvents and cleaning oils?

Neoprene offers good resistance to conventional cleaning products, making it perfectly suited for regular use.

Can it be easily transported?

Yes, it is flexible and rollable, which allows it to be stored or transported without any problems.
