Compact steel-aluminum stock with quick adjustment and ultra-robust

The **Schmeisser Compact Sport Stock (CSS)** is a compact AR stock designed for robustness, ergonomics, and quick adjustment. Its hybrid construction of **high-strength steel** and **6061-T6 aluminum** , combined with a **Tenifer QPQ** treatment, guarantees exceptional durability even under heavy use.

- **Positions** : 4 quick settings
- **Structure** : high-strength steel + 6061-T6 aluminum
- **Treatment** : Tenifer QPQ + hard anodizing
- **Strap attachment** : Central 360° quick-release buckle + ambidextrous side quick-release buckles
- **Loops** : 30 mm side loops
- **Ergonomics** : extended polymer cheek rest
- **Length** : 158 mm (closed) to 245 mm (extended)
- **Weight** : 660 g (with buffer and spring)
- **Assembly** : quick and easy installation

Compact, robust and perfectly balanced, the Schmeisser CSS is aimed at users looking for a reliable stick with quick adjustment and excellent durability.

Robust and durable design

The combination of **high-strength steel** for the mechanical parts and **6061-T6 aluminum** for the structure ensures remarkable strength. Even under heavy use, the assembly maintains rigidity and precision.

High-performance Tenifer QPQ treatment

Advanced protection

The **Tenifer QPQ** treatment offers increased resistance to wear, corrosion and mechanical stresses.

Durability of the land

Combined with hard anodizing, this treatment guarantees excellent durability - a real plus for demanding environments.

Ergonomics and modularity

Quick setting

The 4 positions allow for immediate adaptation to body shape or equipment. Deployment is smooth, without unnecessary effort.

Complete ambidexterity

Multiple QD attachment points (360° rotation) and side loops offer great freedom of configuration, whether you are right-handed or left-handed.

Ease of use

The extended polymer cheek rest improves aiming grip. It's exactly the kind of detail that, in practice, becomes indispensable.

Compact and balanced format

With a reduced length in the closed position and a controlled weight despite its reinforced construction, the CSS maintains excellent overall balance.

FAQ

Is this stock compatible with all AR15 platforms?

It is designed for AR15 platforms compatible with standard tube and buffer systems.

What is the benefit of the Tenifer QPQ treatment?

It greatly improves resistance to wear and corrosion, while increasing the lifespan of components.

Are the strap attachment points ambidextrous?

Yes, the stock has QD points and loops on both sides for fully ambidextrous use.
