SKU	Designation	French Law	Length (cm)	Height (cm)	Weight (g)	Mounting	MSRP
IMP0P12	Picatinny rail / Blaser Prism 11 mm	Vente libre	14.7	0.6	135	11mm rail	255.00 € incl. tax

Dual interface for maximum versatility when shooting

The **Blaser 11mm Innomount Picatinny Multirail** offers a reliable hybrid solution for mounting your optics with precision. Made of hardened steel, it guarantees stability and repeatability, even with powerful calibers.

- **Type:** Picatinny rail + Blaser interface
- **Compatibility:** 11 mm prismatic rail
- **Total length:** 147.35 mm
- **Height:** 6.3 mm
- **Weight:** Approximately 135 g
- **Material:** Burnished hardened steel

A hybrid solution designed for the field

In the field, adaptability often makes all the difference. This **Multirail** allows you to use both **Picatinny** standards and **Blaser-** specific mounts. In practice, this means a quick transition between different optics or configurations, without compromising stability.

Robustness and machining precision

Made from **hardened steel** , this rail inspires immediate confidence. It easily withstands the stresses of powerful calibers and demanding conditions. The cross profiles are precision machined, ensuring repeatable assembly - essential for maintaining your settings after disassembly.

Reliable Picatinny interface

The **Picatinny** standard allows for the installation of a wide range of optics: rifle scopes, red dot sights, or other accessories. The consistent clicks are a welcome feature, ensuring a clean and play-free locking mechanism.

Additional features

- **Finish:** Anti-reflective burnished
- **Use:** Sport shooting and hunting
- **Mounting:** Stable and repeatable fixing

FAQ

Is this rail compatible with all optics?

It is compatible with all Picatinny standard optics as well as Blaser mounts adapted to the 11 mm rail.

Can the setting be retained after disassembly?

Yes, thanks to the precise machining of the notches, the assembly remains repeatable and allows for a reliable adjustment.

Is this rail suitable for powerful calibers?

Yes, its hardened steel construction ensures excellent resistance to the stresses of the most demanding calibers.
