26mm rings available in 3 heights for a perfect fit

INNOMOUNT Ø 26 mm rings are available in three heights - **Low (3 mm)** , **Medium (6 mm)** , and **High (9 mm)** - to precisely adapt to each optical configuration. Their careful design ensures reliable scope retention while allowing for optimal alignment according to the desired mount.

- **Type** : Mounting rings (sold individually)
- **Ring width** : 15 mm
- **Material** : High-strength aluminum
- **Compatibility** : Glasses with a 26 mm center tube
- **Diameter** : 26 mm
- **Available heights** : 3 mm (Low), 6 mm (Medium), 9 mm (High)
- **Weight** : 15 to 30 g depending on the version

Available in three heights, the INNOMOUNT 26 mm rings allow you to optimize the positioning of your scope according to your mounting constraints and shooting ergonomics.

Three heights for a perfect fit

Available in **3mm, 6mm, and 9mm** , these rings offer great flexibility. A low mounting position promotes a natural shooting position, while a higher position facilitates integration with certain lenses or specific setups.

Stability and precision guaranteed

Their **high-strength aluminum** construction ensures excellent optic retention. This is exactly the kind of detail you notice in the field: no drift, consistent hold.

User-centered design

With a width of 15 mm, each ring ensures even tightening without excessive stress on the tube. The assembly remains lightweight, robust, and perfectly balanced.

FAQ

Are the rings sold in pairs?

No, these INNOMOUNT rings are sold individually. You need to order two to equip a scope.

What height should I choose?

The choice depends on your configuration: a low height (3 mm) for mounting as close as possible to the barrel, medium (6 mm) for more versatility, or high (9 mm) to allow clearance for larger optics.

Are these rings compatible with all glasses?

They are compatible with all glasses with a central tube of 26 mm in diameter.
